There, the couple discover more sighted survivors. The story's focus was more on the survivors and how society was changing, rather than the far more interesting Triffids, and frankly I was bored with it.

And sometimes, it's a classic just because it was first, not best. View 1 comment. It can't be seated in a brain, because dissection shows nothing like a brain-but that doesn't prove there isn't something there that does a brain's job.

The Campaigns of Alexander Lesson Plans. Bill rescues the woman, an author named Josella Playton, and escorts her home, where she discovers her father and their hired help all felled by triffids which have surrounded the house. Of course, written in this book is very much the product of its time.
